Alumni Says about this Course

To Whomsoever It may Concern

I have attended the Course on "Healthcare Administration" which was conducted by Mr A Mahalingam. Mr Mahalingam has over 25 years of experience in this field and the Course was designed using all the experience and knowledge he has gained during these years. All aspects of Administration were covered including Customer Care, Legal Aspects, Quality Control, Logistics, Inventory management, Human Resources etc. Lectures were delivered by professionals in these fields.

I personally gained a lot of knowledge from this course and recommend for all individuals who are working in this area.

TESTIMONIAL

I take this opportunity to thank Mr.A Mahalingam for conducting the certificate course in Hospital management. My dream of attending a management course with a short period of 12 weeks was achieved by attending the course conducted by my mentor Mr.A Mahalingam.

I should say that he has a wonderful way of conducting the course, so meticulously by covering different subjects of hospital management in such a abridged form wherein a layman like me who is not from a hospital background could vouch for him.

I saw him how much he is respected in the hospital administration field in Chennai and in the country and would be felt, only if you have an interaction with him.

We were 16 in the batch and all of them successfully completed the course and each and every one of us are in touch with him since he is a person who can rely upon for any help in the field of health care professionals.

Having an experience of 28years in the Pharma selling field, this course conducted by him has helped me in many ways in my selling career. I joined this course in order to shift myself to a hospital management job in future and the course was very useful to me in many ways even in my present selling job. I wish him success in future Endeavour's.

COURSE TESTIMONIAL

I had the privilege of attending the weekend hospital management course, which was very efficiently coordinated by Mr. Mahalingam, who has around 25 years experience in healthcare administration.

The meticulousness with which he sent the profile of the faculties well ahead of the sessions, the PPTs/PDFs of each session after its completion and communication regarding any changes in the programme were top-notch and I am yet to come across such a superb communicator. He was very easily approachable to clarify any doubts that we had during the course. If he was unable to answer our queries (which was very rare), he made it sure that the query is sent to an expert and correct reply is sent to the candidate within a day. Such dedication truly deserves a round of applause.

I am sure that any course that he organizes will be of the same high standards that he sets for himself and the candidates can be assured that the faculty he arranges for the sessions are experts in their fields who share the same vision of Mr. A Mahalingam – i.e., to share the knowledge they have gained to the benefit of everyone.

To Whomsoever It may Concern

I joined the course conducted by Mr. Mahalingam A to learn more about Healthcare management. I had moved to Healthcare industry recently and needed more insight to help me with administration of my Medical centre. I was very happy with the course content as it included all the aspects of managing a medical facility. It was very helpful to me and made a difference to my company.

Mr A Mahalingam brings the best speakers for each topic and conducts them in a very interactive way. The best part is that after the completion of the course, he is always available for any clarifications or assistance.

Regards,

Sabri Jayanthan
