#### To Whomsoever It may Concern

I joined the course conducted by Mr. Mahalingam A to learn more about Healthcare management. I had moved to Healthcare industry recently and needed more insight to help me with administration of my Medical centre. I was very happy with the course content as it included all the aspects of managing a medical facility. It was very helpful to me and made a difference to my company.

Mr A Mahalingam brings the best speakers for each topic and conducts them in a very interactive way. The best part is that after the completion of the course, he is always available for any clarifications or assistance.

#### To Whomsoever It may Concern

I have attended the Course on "Healthcare Administration" which was conducted by Mr A Mahalingam. Mr Mahalingam has over 25 years of experience in this field and the Course was designed using all the experience and knowledge he has gained during these years. All aspects of Administration were covered including Customer Care, Legal Aspects, Quality Control, Logistics, Inventory management, Human Resources etc. Lectures were delivered by professionals in these fields.

I personally gained a lot of knowledge from this course and recommend for all individuals who are working in this area.

I take this opportunity to thank Mr.A Mahalingam for conducting the certificate course in Hospital management. My dream of attending a management course with a short period of 12 weeks was achieved by attending the course conducted by my mentor Mr.A Mahalingam.

I should say that he has a wonderful way of conducting the course, so meticulously by covering different subjects of hospital management in such a abridged form wherein a layman like me who is not from a hospital background could vouch for him.

I saw him how much he is respected in the hospital administration field in Chennai and in the country and would be felt, only if you have an interaction with him.

We were 16 in the batch and all of them successfully completed the course and each and every one of us are in touch with him since he is a person who can rely upon for any help in the field of health care professionals.

Having an experience of 28years in the Pharma selling field, this course conducted by him has helped me in many ways in my selling career. I joined this course in order to shift myself to a hospital management job in future and the course was very useful to me in many ways even in my present selling job. I wish him success in future Endeavour's.

To Whomsoever It may Concern

A well thought out and formulated course, a difficult task on the hand for the organizers to conceptualize and capsule it in a compressed version. It gave us – the participants, a bird's eye view of the functioning of various administrative departments of a hospital. Overall the course provided us an insight into the functioning of hospital administration.

The various reference or interesting material related to hospital administration and individual growth sent to the participants was of great help in understanding various aspects and enriched our knowledge and understanding. Also a special thanks for emailing our course material after every session which will serve as a reference for now and future. A structured and extremely professional course from a well structured and professional organization.

Dear Mr. A. Mahalingam,

First of all, let me thank you, your battalions and all other officials of your institution for giving me an opportunity to complete the certificate course on hospital management successfully.

It gives immense pleasure for having enrolled myself with your esteemed institution for the above certificate course. As a biomedical engineer, my M.S degree at the University of Auckland and this certificate course has rather helped me a lot to increase my knowledge and exposure in medical and healthcare management field.

I hereby assure to propagate to all my colleagues those related to hospital field to take up your certificate course and make best use of this course knowledge.

Kindly convey my sincere warm regards to all your staff members for having cordially treated us during this entire course period. I wish you and your team, all the best for the future. **Thank you.**

Dear Shri Mahalingam Sir,

Thank you very much for the wonderful experience we had at the weekend course in Hospital Management at your institution. I really enjoyed and learnt many things that has to be looked forward to run a good hospital. ACADEMY AND ADMINISTRATION are like two wings needed to come out in flying colours.

### B Sai Shankar

I had the privilege of attending the weekend hospital management course, which was very efficiently coordinated by Mr.Mahalingam, who has around 25 years experience in healthcare administration.

The meticulousness with which he sent the profile of the faculties well ahead of the sessions, the PPTs/PDFs of each session after its completion and communication regarding any changes in the programme were top-notch and I am yet to come across such a superb communicator. He was very easily approachable to clarify any doubts that we had during the course. If he was unable to answer our queries(which was very rare), he made it sure that the query is sent to an expert and correct reply is sent to the candidate within a day. Such dedication truly deserves a round of applause.

I am sure that any course that he organizes will be of the same high standards that he sets for himself and the candidates can be assured that the faculty he arranges for the sessions are experts in their fields who share the same vision of Mr.A Mahalingam – i.e., to share the knowledge they have gained to the benefit of everyone

Dear Mahalingam Sir

Many Thanks for your mail & messages. It has been wonderful to get associated with you & your academy by way of this course. I was initially a bit apprehensive when I first went through your advertisement, whether I would be the right candidate especially from a Life Insurance Background. But now having completed the course, it gives me immense pleasure that I've learned something new about Hospital Management, hospital administration, Health Claims Marketing/ Claims process, NABH accreditation of hospitals, Leadership, Team Building etc.. It was a renewed treat for me, having learnt management @ LIMA about 15 years back which shaped up my corporate career.

I wish to place on record, my appreciations to all the faculty members (not to single out anybody) for their lively interactions & unstinted guidance to make us, candidates comfortable & share their valuable insights & experiences.

I wish the Academy All the VERY BEST & May many more such courses find it roots in the academy especially catering to applicants from interior & rural Tamil nadu. You can count on me for any support you require to spread this awareness message.
