

TwinTech Academy and Saveetha Dental College celebrated National Technology Day on 11th May 2017

A high power seminar on the critical role of technology in effective health care delivery marks high point in ‘Technology Day’ celebrations in city

Saveetha Dental College's dept of Pharmacology joined hands with Twin Tech Academy the leading Management Consultancy and Teaching and Training institution committed to dissemination of knowledge for the common good, to conduct a seminar on Information and communications technology in Healthcare on the 11th May 2017 at its campus on the occasion of ‘National Technology Day’.

Shri A Mahalingam an academicians & healthcare administrator par excellence and Managing Director of TwinTech Academy Business Management Solutions Pvt. Ltd inaugurated the seminar and briefed the audience about his institution and underlined the significance of ‘National Technology Day’ in an age when every facet of human endeavour and activity is dependent on technology.

He emphasized that suitable technology adoption is a must and would ensure that medical care is affordable to all and at the same time ensuring that there is no compromise in its quality and speed of delivery which results in the complete delight of the patient. He highlighted that such technology adoption and implementation in terms of new state-of-the-art medical equipment is an integral part of medical delivery.

The objective of the seminar was to deliberate on typical questions raised in the context of deploying adequate technology in the modern

healthcare delivery process. Prof T. Ramanan M. SC. IT and MBA Technology Management – a seasoned and multi-faceted professional who brings with him an expertise on diverse areas and subjects like Information Technology, leveraging the same effectively in various industries, product development in satellite industry, IT support, training and business development met this objective in his own inimitable way.

The Session presented an in depth picture of how Information & Communication Technology has seamlessly blended into the Healthcare Delivery process and how it has simplified the access and update of Medical Record of the patient from anywhere/anytime.

Mr Ramanan spoke in detail on the deployment of ICT in various areas of Healthcare, like Quality Medical Service Delivery, technology enabled onsite/offline Education methodologies; the Clinical Decision Support Systems to supplement the diagnosis process and in Tele medicine to reach out Medical Care to the door step of the rural Poor.

The professionalism, commitment and eye for detail in organizing the event exhibited by Organizing Secretary/ Assistant Professor of Pharmacology, Prof T Lakshmi was very evident at every stage of the event. Ms Anitha Roy, Asst Prof, Dr D Ezhilarasan Senior Lecturer of Pharmacology and over 100 delegates from various institutions attended this unique seminar.

The high power seminar was extremely well received by the participants and drew rich appreciation from both participants and speakers alike.
