MESSAGE

It gives me immense pleasure to learn that TwinTech Healthcare Academy and RMD Academy for Health, Chennai, are jointly organizing a seminar on Pain Management & Palliative Care Advances on 18th November, 2019 at Chennai and is bringing out a souvenir to mark the occasion.

Society at large, especially the Medical fraternity has a moral and professional responsibility of ensuring the physical and mental wellbeing of our senior citizens whom we respect and adore, by providing them customized healthcare, moral support and comfort.

Palliative care is emerging as a key branch of healthcare although it still has not received its due importance. I am sure that this conference will enlighten and educate healthcare professionals in dispensing specialized care to the aged and inculcate the human values of love, care and concern for the aged. I congratulate the organizers for focussing on a very humanitarian branch of healthcare, namely 'Palliative Care'.

I convey my best wishes for the success of the conference and extend my warm greetings to the participants.
